

OAG Cargo Data

OAG Cargo Data provides a variety of solutions by sourcing the most comprehensive and up to date airline schedules database. OAG is the only cargo data provider with membership of TIACA (The International Air Cargo Association).

Airlines, Freight Forwarders and Shippers throughout the world enjoy time, effort and cost savings benefits from using the OAG Cargo Data service. OAG provides customized extracts for schedules and rules data which can be integrated with a customer's own proprietary in-house system. The information can be used to simplify the planning of cargo shipments and documentation, to validate associated revenue accounting, to make rate comparisons and improve customer service enquiries.

Features:

- Accurate and current data will improve internal efficiency and customer service
- Flexibility in frequency of supply, regular or ad-hoc delivery
- Data can be customized to meet customer's needs eg. by geographic region, type of service
- Data supply can be networked globally across organizations
- Reduces the need for manual input and thereby errors
