

OAG CargoDisk Plus

OAG CargoDisk Plus is a CD-based decision support tool providing worldwide cargo and passenger schedules.

Updated monthly, OAG CargoDisk Plus helps you build reliable cargo routings quickly and easily. The software also remembers your preferences, saving you the inconvenience of re-entering data for each new shipment. A clever connection-building function takes the guesswork out of building complex routings too and you also have 24/7 access to real-time flight status so you know if a flight has been delayed.

Supplementary information is also included such as regulations by country, documentation requirements and aircraft loading restrictions.

Designed for cargo professionals who demand cargo information at the touch of a button, OAG CargoDisk Plus provides all the information to make planning air shipments, quick and easy.

Features:

- Access over 398,000 cargo schedules for wide and narrow-body passenger aircraft, freight and road feeder services
- Updated CD delivered monthly
- Search by carrier, connections, equipment and aircraft type
- Integrated dangerous goods and rules & regulations database
- Country regulations, documentation requirements and aircraft loading restrictions
- Intuitive connection-building function
- Stores your preferences for carriers and mode of transport

Benefits:

- Comprehensive coverage of worldwide flight schedules and cargo information
- Quick reference tool that is easy to use
- Access vital supplementary information in one source
